

Week 1 - Assignment

Model provider	Model	Release Date	Cut off Date	Cost of tokens (per 1M input/output)	Context window	Type	When to use this model
OpenAI	GPT-5.5	April 2026	December 2025	\$5.00 / \$30.00	128,000	Proprietary API	Advanced multi-step agentic execution, complex reasoning, and native terminal-based engineering tasks.
Anthropic	Claude Sonnet 5	June 30, 2026	March 2026	\$3.00 / \$15.00	200,000	Proprietary API	High-intensity autonomous software engineering, recursive tool-use, and production coding pipelines.
Google DeepMind	Gemini 3.1 Pro	February 2026	November 2025	\$2.00 / \$12.00	1,000,000	Proprietary API	Parsing massive code repositories, analyzing hours of video/audio natively, and long-form data processing.
Meta Platforms	Muse Spark 1.1	July 2026	February 2026	\$1.50 / \$4.50	128,000	Proprietary Cloud	Scalable enterprise generation and closed-source secure infrastructure tasks requiring high compliance.
DeepSeek	DeepSeek V4 Flash	April 2026	January 2026	\$0.14 / \$0.28	128,000	Open Weights	Extreme high-throughput workloads, heavy API automation, and cost-constrained production environments.
Zhipu AI	GLM-5.2	June 2026	February 2026	\$1.40 / \$4.40	128,000	Open Weights	High-accuracy coding execution matching closed-source performance on

Week 1 - Assignment

							open-weight hardware.
Moonshot AI	Kimi K2.7 Code	June 2026	January 2026	\$1.00 / \$3.00	200,000	Open Weights	Multi-step user interface generation, visual coding, and cost-effective local program development.
xAI	Grok 4.3	May 2026	April 2026	\$2.00 / \$10.00	2,000,000	Proprietary API	Deep real-time platform data synthesis and ultra-large multi-million token practical context analysis.
Mistral AI	Mistral Large 3	October 2025	August 2025	\$2.00 / \$6.00	256,000	Commercial Open	On-premise enterprise hosting, sovereign cloud compliance, and fine-tuning with local data ownership.
ByteDance	Seed 2.1 Pro	June 2026	March 2026	\$0.80 / \$2.40	128,000	Proprietary API	Fast, low-latency text automation, e-commerce content workflows, and scalable consumer application logic.
